

## MUNDANE DATA PAGE

The following are links to charts of events that I have examined over the years. This page is related to US administrations and presidents. Almost all of the events listed have a known time to the minute, with the source being referenced on the chart, and with links to the articles by clicking on the time. This page is updated as I get more information, and will likely change month-by-month. Events are listed alphabetically, rather than by date.
